

# Superstar

## Saliva

Now has come the day  
That I take the lead and I make you follow  
Toast the champagne  
'Cause I came for greed and not for tomorrow  
If it feels good  
Then it feels good and I do it all day  
You want me to play  
You best bring your brain, you best bring your money  
Yay! Make me a superstar  
Yay! No matter who you are  
Razorblade and lines  
And I walk the line without fearing no one  
Damn, my throat is dry  
I cant taste the wine from these empty bottles  
Films and magazines  
It's all what I need and all what I planned on  
Wheres my limousine?  
Its just like a dream that I wont wake up from  
Yay! Make me a superstar  
Yay! Don't matter who you are  
Yay! Make me a superstar  
Yay! No matter who you are  
And all of my pills and all of my drinks  
Is makin' me, makin' me, makin' me  
And all that I feel and all that I see  
Is makin' me, makin' me, makin' me  
Cover me in greed  
'Cause you planted the seed when you fed my ego  
Needless and disease  
For old invincible me like some kind of hero  
Is it no surprise  
That Im paralyzed by my fame and fortune  
As I close my eyes  
And dive into the sky, Im dead  
Yay! Make me a superstar  
Yay! Don't matter who you are  
Yay! Yeah, make me a superstar  
Yay! No matter who you are  
And all of my pills and all of my drinks  
Is makin' me, makin' me, makin' me  
And all that I feel and all that I see  
Is makin' me, makin' me, makin' me  
And all of my pills and all of my drinks  
Is makin' me, makin' me, makin' me  
And all that I feel and all that I see  
Is makin' me, makin' me, makin' me  
Yay! Make me a superstar  
Yay! Don't matter who you are  
Yay! Yeah, make me a superstar  
Yay! No matter who you are  
Superstar
