# Hey, It's Me

## Jamie Rivera

Hey, it's me
I hope you still remember
Your old friend
And then, we can talk and laugh again

Hey, it's me
I never thought I'd see you once again
And I just can't believe
You're right here with me

Now lookin'
Starin' and talkin'
Tellin' me things
That you've done all these years

Hey, it's me (it's me)
The one (who'swho'll) always (caredcares) for you
Oh yes (yes), it's me
The one (who'swho'll) always (caredcares) for you
I just hope you still remember
And I wish it crossed your mind
All the memories that we have left behind

Hey, it's me
Now, that you're back in my arms,
You'll see I'll always keep you here in my heart

Hey, it's me
I'd never thought I'd feel this love again
And I just can't believe you're right here with me

Now lookin'
Lovin' and feelin'
Sharin' this love for the rest of our lives

Hey, it's me (it's me)
The one (who'swho'll) always (caredcares) for you
Oh yes (yes), it's me
The one (who'swho'll) always (caredcares) for you
I just hope you still remember

And I wish it crossed your mind
All the memories that we have left behind

Hey, it's me (it's me)
The one (who'swho'll) always (caredcares) for you
Oh yes (yes), it's me
The one (who'swho'll) always (caredcares) for you
I just hope you still remember
And I wish it crossed your mind
All the memories that we have left behind

Hey, it's me (it's me)
The one (who'swho'll) always (caredcares) for you
Oh yes (yes), it's me
The on
