# Home Ice Advantage

## Belvedere

pure genocide pales in comparison to your proposal
this is no accusation the years of evidence remain
supposing everyone breaks the pattern they've been breeding
but will they five up freely
indoor swimming, suburban living
fuck all the things we're taught to bring us happiness
new automotive, wallet bloated
let go,
consider all that you're affecting
and know your system won't survive
taking for granted every single gift that we've been given
our globe is spinning on an axis of fucking decimation
no hope no explanation
from the spoiled rotten millions
they'll never give up freely
indoor swimming, suburban living
fuck all the things we're taught to bring us happiness
new automotive, wallet bloated
let go,
consider all that you're affecting,
and know your system won't
survive
