

Different Kind of Love

[Steve Angrisano](#)

Open up your heart and youâ€™re gonna feel it, oh yeah
Thereâ€™s a Spirit movinâ€™ inside this place tonight
The love of God just totally surrounds you;
You got to open up your eyes
When we light the way thereâ€™s a different dream, a different kind of magic
We light the way for a world afraid of the night
We bring a different love to a world that needs his light tonight
The love of God is more than an ancient story;
Itâ€™s alive and movinâ€™ out in this world tonight.
Whenever we reach out to help another.
We share the love of Jesus Christ.

When we light the way thereâ€™s a different dream, a different kind of magic
We light the way for a world afraid of the night
We bring a different love to a world that needs his light tonight
Donâ€™t you know that we are called to be
Examples of the love that Jesus gave to us
So Everyone could see, when they look at you,
The love of Jesus meant for them to see.
You donâ€™t have to stand on a hill and shout itâ€™No!
The love that Jesus gives you is in your eyes and hearts.
He doesnâ€™t want to hear you talk about it
Until you learn to live it out.
When we light the way thereâ€™s a different dream, a different kind of magic
We light the way for a world afraid of the night
We bring a different love to a world that needs his light tonight
