

# Horny In The Morning (live 2003)

## Pansy Division

Woke up with a morning woody  
Could not keep my hands off my goodies  
Alone in bed another day  
I guess that's the price you pay  
Cause late is when the bars get hopping  
By then I'm tired out and dropping  
Want a guy on the horizon  
When the sun comes up, that's when I'm rising  
Horny in the morning  
I'm crashed out in the evening fading  
Wake up in the morning raging  
I'm horny in the morning  
And my nerves are nearly gone  
Woke up with a morning woody  
But no one's here to share the goodies  
Morning dick is so enticing  
I'll eat the pastry but not the icing  
Want go to work refreshed  
Instead of stifled and repressed  
Want someone to do me right  
To do me in the morning light  
My libido's like king kong  
But I've been solo for so long
