Everything Is Broken

Ollabelle

Take hold of this moment
Let go all of the past
Everything is broken
Nothing ever lastsEverything is broken
Nothing ever lastsFall back to the one thing
One thing that makes sense
Hold around each other
Be in the present tenseEverything is broken
Nothing ever lastsNow here we are just like we've started
The ghost of love departed
Well, here we are just like we've started
The ghost of love departedTake hold of this moment
Let go all of the past
Everything is broken
Nothing ever lastsEverything is broken
Nothing ever lasts
Well, everything is broken
Nothing ever lastsEverything is broken
Nothing ever lasts
