

# Falling

**Mindy Smith**

It seems like out of nowhere  
I'm coming apart  
And nothing could've saved me  
You went straight for my heart When I've almost had enough  
Something about you draws me back again  
When I've almost given up  
Something about you pulls me in, and we're falling It feels like I am reaching  
Tryin' to hold on to you  
And I know that there's still hope here  
And I know you'll come through When I've almost had enough  
Something about you draws me back again  
When I've almost given up  
Something about you pulls me in, and we're falling
