# Had Enough

## Lisa Lisa

( ) denotes back up vocalsMy heart was filled with love and devotion
I gave it all to you
And in return you gave me nothin
Its always been 'bout you
Now its done
finally won my freedom from the pain I was in
Im takin back my life and my pride
I've got nothin to give ... cause you took everything(Chorus)
Ive had enough now
(Dont say a word, Dont make a sound)
(Dont you even look at me)
Im fed up now
(Just call your boy, you can call your girl)
Dont care just let me be
You turned me inside out
(I believed in us, now it's just disgust is all I got for you)
Ive had enough now (enoughs enough and it's)
Its so over (enoughs enough)I dont know why I stayed and waited
I fell for you no doubt
I tried and tried to be so patient
But this is my final bow
Shame on you, how could you deceive me?
I was so good to you
Dont tell me that its all gonna change
Cause I wont back down, theres no turning around(Chorus)
Ive had enough now
(Dont say a word, Dont make a sound)
(Dont you even look at me)
Im fed up now
(Just call your boy, you can call your girl)
Dont care just let me be
You turned me inside out
(I believed in us, now it's just disgust is all I got for you)
Ive had enough now (enoughs enough and it's)
Its so over (enoughs enough)I blame myself for not demanding more
I let it go too far
Maybe youll find somebody else
Who'll put up and shut up but I know for sure(Chorus)
Ive had enough now

(Dont say a word, Dont make a sound)
(Dont you even look at me)
Im fed up now
(Just call your boy, you can call your girl)
Dont care just let me be
You turned me inside out
(I believed in us, now it's just disgust is all I got for you)
Ive had enough now (enoughs enough and it's)
Its so over (enoughs enough)
Ive had enough now
(Dont say a word, Dont make a sound)
(Dont you even look at me)
Im fed up now
(Just call your boy, you can call your girl)
Dont care just let me be
You turned me inside out
(I believed in us, now it's just disgust is all I got for you)
Ive had enough now (enoughs enough and it's)
Its so over (enoughs enough)
