

# Whatever Makes You Happy

## Powderfinger

If we never make it back to how far we've come along this way  
We search around for solid ground that will help to carry us away  
If the memories I left throw the light that helps to guide you through  
We trickle down to our goodbyes but a part of me will stay with you  
What we've spoken over time, never broken or compromised Dream on together, leaning against each other  
However it happens I hope it's whatever makes you happy  
Whatever makes you happy Dream on together, leaning against each other  
However it happens I hope it's whatever makes you happy  
Whatever makes you happy then
