

The Awakening

P.O.D.

I, I'll take this moment
to make up my mind and decide
If I want to stay broken
Or leave all these feelings behind
(Leave these things behind)My, my eyes are open
So I can't deny
Say goodbye to all this commotion
And try and find your way so you can shine
(find your way to shine)[Chorus]
I'll stand unbroken
My eyes are open
My great awakening
The truth is spoken
My eyes are open
To this great awakeningI, I can feel the changes
It's how I want to be
And now I gotta keep it moving
If I really want to be free
(If I want to be free)I, Still I will follow
Even if there's noone else but me
So let's live like there's no tomorrow
And love like if everyone believed
(If everyone believed)[Chorus]My eyes are open
And now I can see
Everything before me
I'm right where I should be[Chorus x2]
