Inside My Head

Tough Lovers

I was afraid of a ghost inside my head
i was afraid of the time and i wanted to change, i needed to change
so i took to the wind, set my sails and i'll go to where i don't know
inside my head

i was afraid of a ghost and i wanted to change i needed to change
so i pulled you aside, said i hope that you stay, don't go away
inside my head

the reaper knows your name and he knows your situation
he knows just where you're living, what cigarettes you're smoking
and i will be alone again
