My Own Savior

Iced Earth

My only comfort is in death
My only solace, my dying breath
For release, I have prayed
Thrown past life, not afraidLife's a bitch, life's a whore
Nothing less, nothing more
There is nothing she would do for me
I will end this sufferingChorus:
Existence of one man
Hatred with no end
My madness, my sadness
I am my own saviorThe voices are calling
Out of this life, I'm falling
There is one choice, that I see
In raging flames, The Dark One awaitsChorus
