

# Neva Antiquated (Instrumental)

## Jedi Mind Tricks

"The rapper Ikon be throwing cerebral blows in telepathic forms"  
"The rapper Ikon be throwing cerebral blows in telepathic forms"[Ikon the Verbal Hologram]Complexities  
break entities when hardcore be the factor  
Physically shatter by the cause of the megacosm distractor  
Fractured by my supernatural forces, face losses  
As I break backs like Superman on horses, word ajar  
Ancient warrior like Thor  
Spiritual like the Ibis god Thoth  
Complex construction by the technician will dismantle your collective mind  
Enemy of mankind, with Egyptian archaeological finds  
dwelling in the dungeon of time  
Monomaniacal beat seeker  
Swarming like locusts into your speaker  
Examining your communication systems with cybernetics  
Key notes of my flows or get froze with cryogenics  
East coast domination for the D-U-B massive  
Gathering at black masses to gain knowledge of the clashes  
of past rhythmic masters  
After the smoke clears, brain matter is discovered  
Smothered by my soundscapes that have left you dismantled  
Enchanted by my verbals as Ikon be burning candles"The rapper Ikon be throwing cerebral blows in telepathic  
forms"  
"Futuristic, neva antiquated"  
"The rapper Ikon be throwing cerebral blows in telepathic forms"  
"Causing cataclysms, to serve a purpose"Emerging from the mist is not an individual but four  
hardcore concepts causing everything to be raw  
8804 AD causes misery that be abominable  
Evil like three times hexagonal  
To test my squadron and watch your macrocosm turn to particles  
Non-particles are non-particles  
Like the nucleus of an atom  
The corpuscles which carry the oxygen from the lungs gather patterns  
Energy from the soul, black hole, like spirit of Kukido  
Sun, black circle of one, level of brevity is none  
Transformed by gods of sun  
Industrial power get devoured by the demonic  
Read the fine rhymes with mental +War Games+ like Matthew Broderick  
Revive shit, or live shit defy the carcass  
My war sons and born sons revolve around darkness"The rapper Ikon be throwing cerebral blows in telepathic

forms"

"Futuristic, neva antiquated"

"The rapper Ikon be throwing cerebral blows in telepathic forms"

"Causing cataclysms, to serve a purpose""The rapper Ikon be throwing cerebral blows in telepathic forms"

"Futuristic, neva antiquated"

"The rapper Ikon be throwing cerebral blows in telepathic forms"

"Causing cataclysms, to serve a purpose" Spiritual violence leave your alliance in microscopic fragments

My circle of darkness is ferro-magnetic

Suffer Chinese water torture, my word is water

Transcendental planets will vanish like ???????? daughter

Hypnotical regions in my mental, a rhythmic cycle

Recitals of euthenic theories have been retitled

To be digested by the masses, I smash kids with verbals

Gortex through your chest causing incidental murders

Of weak minded emcees getting caught up in my hurdles

of chemical disruptions, by sodium chloride, potassium, denatonium benzote

Ultimate sacrifice to the gods bloodier the kings

Son of Barada, know the mode of darkness like Bhagavadanta Prabhupada

Infinite light, space and time rhyming physics

Polyrhythmic planetariums relate sounds from aliens on other planets[Ikon / Sun Pharaoh]

Complexities bring entities when hardcore be the factor

Physically shattered by the cause of the macrocosm distracter

Fractured by my supernatural forces, face loses

As I break backs like Superman on horses

Word ajar, ancient warrior like Thor

Spiritual like the Ibis God Thor

Complex construction by the technician

Will dismantle your collective mind, Enemy of Mankind

With Egyptian, archeological finds

Dwelling in the dungeon of time

Monomaniacal beat seeker

Swarming like locust into your speaker

Examining communications systems with cybernetics

Key notes of my flows will get froze or cryogenics

East Coast domination for the D-U-B masses

Gathering at black masses to gain knowledge of the clashes

Of past rhythmic masters, would end up bending, never-ending

like the sky

One-point twenty-one gigabytes to defeat me like Marty McFly

So why, would you battle with the recipe

Got rappers sweating harder than some retards on Jeopardy

One time for your mind, no doubt(Chorus)

My Jedi Mind Tricks will break your molecular structure down.

(Return of the Jedi)

My Jedi Mind Tricks will break your molecular structure to

pieces.

(Return of the Jedi)My brainstorm will swarm into your sections

Scientific lessons and my possession unload within my session

Injectons infesting insight am I causing tension

Blessing mad crews is my obsessionIntentions to make you change professions

Wisdom imprison dejects leaving you vexed

My cerebral vortex rips erects when I infest (bless)

We deep scriptures that's evil

There's ? my cerebral, then ? remain imperial

Unbelievable lyricism will leave incisions

Cause pain like circumcision as you recognize (the realism)

The G-O-D verbally damage M.C.'s

Tragically come and battle me, bare witness to insanity

My corrupted mentality, plan to slaughter your family

grammatically

I bless the microphone with strategy

Your alliance is left in silence, victim of verbal violence

Deadly vocabulary, the God be dropping science

No doubt(Chorus)Amongst the illest individual's, I bless the mentals of  
criminals

With materials formulated to penetrate cerebrals

I'm lethal, imperial type scriptures infiltrate, then split you

Simulating your nugget when I hit you

Emerging from the mist is not individual but four

Hardcore concepts causing everything to be raw

8804 AD causes misery that be abominable

Evil like three times hexagonal

Test my squadron and watch your macrocosm turn to particles

Non-particles are non-particles

Like the nucleus of an atom

The corpuscles which carry the oxygen from the lungs gather  
patterns

Energy form the soul

(Fade): Black soul like spirits of Kukido(Chorus)
