

# This Is What I Believe In (LP Version)

**Adrian Belew**

Hold tight to your faith  
Don't let nobody make you jaded  
Your love is precious,  
Give it to somebody who deserves it  
This is what I believe inHold tight to yourself  
Don't let nobody give you hell  
Your life is sacred  
Live it right, but live it your way  
This is what I believe inAll the world is a cannibal  
Even time itself will eat us all  
But that's no reason to be a jerk  
You either make it better or make it worseI believe this. I believe it's true  
I believe itAll the world is dangerous  
Full of homicidals and terrorists  
But underneath their blanket of hate  
The only thing that will survive is our love and faithI believe in truth  
And I believe in me  
And I believe in you
