When I First Trusted You

Keith Green

Well I though I depended upon you.
At least that used to be what was happening with me.
In those times of our first sweet communion,
Nothing got in the way, I heard your voice everyday.
When I first trusted you, gave my life to you.
When I trusted you.Well there's something that needs to be cleared up.
I feel so sorry inside, that my first love has died.
Cause I've tried in my own strength to follow.
When I've known all along, I just couldn't go wrong.
If I'd only trusted you, give my life to you.
If I'd trusted you. ooh, trusted you.Well I though I depended upon you.
At least that used to be what was happening with me.
In those times of our first sweet communion,
Nothing got in the way, I heard your voice everyday.
When I first trusted you, I gave my life to you.
When I trusted you.
