

Everlove

Die Happy

I wanna look into your eyes
and tell you how I'm feeling
Take me as I am
I'm still not easy
Don't wanna be afraid
That you'd dissappear
Have a twisted soul
Gotta loose control Everytime I try
Wanna cross your borders
Everytime you make me scream
If we call it Everlove
Are you ready?
Everytime I try
Wanna love you stronger
Everytime you make it real
Call it Everlove
are you ready? You turn me inside out
I hope you fix me later
Giving it a try
Won't break your shelter
I'm about to understand
I compromise myself
In the name of love
I am strong enough This is everlove
