Fireside

Fireside

I can't explain but I wanna try
There's this image of you and I
And it goes dancing by in the morning and in the night time
There's all these secrets that I can't keep
Like in my heart there's that hotel suite
And you lived there so long it's kinda strange now you're goneI'm not sure if I should show you what I've found
Has it gone for good or is it coming back around?
Isn't it hard to make up your mind
When you're losing and your fuse is firesideThere's all those places we used to go
And I suspect you already know
But that place on Memory Lane you liked
Still looks the same but something about it's changedI'm not sure if I should show you what I've found
Has it gone for good or is it coming back around?
Isn't it hard to make up your mind
When you're losing and your fuse is firesideAnd I thought I was yours forever
Well maybe I was mistaken
But I just can't help my nature make it through the day
Without thinking of you latelyI'm not sure if I should show you what I've found
Has it gone for good or is it coming back around?
Isn't it hard to make up your mind
When you're losing and your fuse is fireside
