

# If I Knew Then, What I Know Now

## Lyfe Jennings

It took a tragedy for me to see, for me to come back to reality  
It took my family, sanity  
This wasn't part of the plan for me  
People talked about me, went on without me  
As if I had never existed  
I guess a blessing taught me a lesson  
I'll remember as long as I'm living  
If I knew then what I know now, I'd be different, I would slow down  
I would not be running around, if I knew then what I know now  
If I knew then what I know now, I'd be different, I would slow down  
As the world spins round and around, wish I knew then what I know now  
I did it to myself, blamed nobody else  
People warned me before it went down  
I was out of control, drugs and alcohol, living lyfe like there was no tomorrow  
And I'm not no superstar, times are super hard  
I'm still finding my way dad to day  
And I'm a man of my mind, I apologize, no one's perfect we all make mistakes

If I knew then what I know now, I'd be different, I would slow down  
I would not be running around, if I knew then what I know now  
If I knew then what I know now, I'd be different, I would slow down  
As the world spins round and around, wish I knew then what I know now  
Spent a lot of time upset, lot of things I regret  
Damn it's so hard to let it go it go  
They say that this gonna pass, I know but I'm still mad  
It just all happen so fast, fo sho fo sho  
Mommy say lyfe is prayer, daddy say lyfe ain't fair  
But at least lyfe still here, ya know ya know  
If I could take it back I would, if you could take it back you should  
Bad times come with the good, hold on hold on  
If I knew then what I know now, I'd be different, I would slow down  
I would not be running around, if I knew then what I know now  
If I knew then what I know now, I'd be different, I would slow down  
As the world spins round and around, wish I knew then what I know now
