Contention

Osker

Watch your expectations crumble
I hear the things are the same things you never
Never knew that you never wanted
I take those things with me to sleepI'm not the one you want, there is no time
I don't think I can, how hard can you push on me
And how can I indifferently without making this something
More than I want to put up withI won't let a heartbreak happen
I can see the harm I had a net for August
It's safe, let's not slow it down
We won't wear it out, we time-travelI'm not the one you want, there is no time
I don't think I can, how hard can you push on me
And how can I indifferently without making this something
More than I want to put up withI'm not the one you want, there is no time
I don't think I can, how hard can you push on me
And how can I indifferently without making this something
More than I want to put up withHow hard can you push on me
And how indifferent can I be without making this something
More than I want to put up with
