

Take Time

Lenny Kravitz

You can have it if you really want
You can grab it if you have a thought
Feel your power that is deep within
Are you ready? On your mark begin
We should take time out to really love
We should find out who we really are
We should take time out to really love
Do you feel this life's a big mistake?
Don't you hate the way it's all so fake?
All I wanna do is just be real
And get off of the spinning wheel
All they sell us is a sack of lies
And we're buyin' one in every size
Can't you see it in the children's eyes?
It's about to get wild
We should take time out to really love
We should find out who we really are
We should take time out to really love
(Haa, yea)
We should take time out to really love
We should find out who we really are
We should take time out to really love
We should take time out to really love
We should find out who we really are
You can have it any way you want it
You can have it any way you want it, hey
We should take time out to really love
We should find out who we really are
You can have it any way you want it
You can have it any way you want it, hey yea
(You take the time)
We should take time out to really love
We should find out who we really are
You can have it any way you want it
(Any you want it)
You can have it any way you want it, hey hey
We should take time out to really love
(Ooh, ha ha)
We should find out who we really are
You can have it any way you want it
(Any you want it)
You can have it any way you want it, hey, hey
We should take time out to really love
(Ooh, ha ha)
We should find out who we really are
(Hey, yea)
You can have it any way you want it
You can have it any way you want it
