

Down

Ghost Town

I call but you're never there
They weren't with us to hear you swear
This time will be different
I'm through with the belligerence (belligerence)History repeats itself
But here I stand so sad with myself
Not because you're hurting me
Because I let you!
Because I let you! I give up on you
Cause you gave up on me
If you kept your word
This wouldn't be
This wouldn't be eating me alive
And killing youDon't leave me out to dry
With me it's do or die
Don't roll the dice with me
You won't win
My luck is looking downDown down down
Down down down
Down down down, downMy luck is lookingI've tried in every circumstance
To be me to be a better man
But I can only take so much
Before I crumble before I cave inThis life we lead is a privileged one
You and I both know firsthand
We were meant for bigger thingsDon't leave me out to dry
With me it's do or die
Don't roll the dice with me
You won't win
My luck is looking downDown down down
Down down down
Down down down, downMy luck is looking downDown down down
Down down down
Down down down, downMy luck is looking downI call but you're never there
They weren't with us to hear you swear
This time will be different
I'm through with the belligerenceI call but you're never there
They weren't with us to hear you swear
This time will be different
I'm through with the belligerence(Down down down
Down down down

Down down down, down)Don't leave me out to dry
With me it's do or die
Don't roll the dice with me
You won't win
My luck is looking downDown down down
Down down down
Down down down, downMy luck is looking downDown down down
Down down down
Down down down, downMy luck is looking down
