

# Jerry Springer

## Beerzone

It's been one week since we got to see  
Cheatin' lovers and cousins that marry

Five days since they had the show

With the hermaphrodite, the slut and the crack ho

Three days since we heard the tale

About the guy who learned his woman was a she-male

Yesterday it occurred to me

That I've been watchin' a bit too much Jerry SpringerHoly cow, did you see it last week?

Well, they had this one freak

Who suckered punched his whole family

Do you recall when the brawl became a total free-for-all

And Jerry's in the middle tryin' to be the refereeHey, see the stripper with the implants

She likes to lap dance and date the boyfriend of her mother

Now here comes Jerry's next guest and it's a slugfest

'Cause it's her trailer trash brotherNymphomaniac is back on crack

It's like 'When Animals Attack'

They all exhibit reprehensible behavior

Hit 'em in the nose, tear off their clothes

Step on their toes, that's how it goes

They get so violent they have to sign a waiverThey're always swearin', cursin', kickin' butt and pointin' blame

On the air they don't care, they've got no shame

There was one guy who I'm sure felt a little strange

When he found out that his wife had a sex change

They have a tendency to scream and yell constantly

They have a history of ripping off their shirtsIt's been one week since they had the fight

With the Siamese twins and the transvestite

Five days since that awful brawl

They still haven't got the blood off the wall

It's been three days since the bitter feud

Between the KKK and that gay Jewish black dude

Yesterday, finally dawned on me

I'm spendin' way too much time on that Jerry SpringerBaby, I've been sleepin' with your sister

Oh, which one?

All of 'em

Oh, well, I've been sleepin' with your best friend Jake

Yeah, well, well me too

Oh!

And I've sleepin' with your dog Woofie

Woofie, you bitch!

Well, I'm also sleepin' with your pet goat  
That goat doesn't love youOnce you start watchin', there's just no stoppin'  
Your brain shuts down, then your IQ's droppin'  
Jerry's the king of confrontation, he's a sensation  
He puts the 'sin' in syndicationIt's totally worthless, like a bad check, it's like a train wreck  
Don't wanna stare but you can't look away  
Like Sally Jesse he does talk shows but with more weirdos  
The ratings jumpin' higher everydayIf you've seen the show, well, then you know  
It's just as low as you can go  
The guests are tacky and they're lacking in their hygiene  
And pretty soon some ugly goon  
Comes in the room and then it's 'boom'  
In the face of some unsuspecting drag queenWell, it's the kind of show where people scream obscenities  
Yankin' hair, throwin' chairs at their hubbies  
"Jerry, Jerry", now the crowd starts their favorite chant  
Should I turn off my TV? I just can't  
I have a tendency to watch it religiously  
I have a history of taping each oneIt's been one week since the show about  
Psycho killers with problems they should work out  
Five days since the big surprise, when  
Some loser's wife said that she's still dating twenty guys  
Three days since he interviewed a bunch of psychic  
Porn star midgets who were all nude  
Yesterday, it occurred to me  
That I've been watchin' a bit too much Jerry SpringerTired of wastin' my time on that Jerry Springer  
I've got way too much class to watch Jerry Springer  
Come over here and pull on my finger
