

Nobody but Me

Save Ferris

I was on the outside
Tryin' to find my way back in
You were the answer
I was searchin' for my, friendLife is crazy when you're
Always on your own
It's amazin' when you
Realize that you're not aloneI should have known
A long time ago that
You were the one for me
I let my ego bring me down
And that's what blinded meLife is crazy when you
Don't know what you've done
And I'm a fool to think thatThere could be
Someone else
When I know
There's no other oneI said baby
What are you doin'?
Who are you foolin'?
Nobody but meI said baby
Give me some time
To change your mind
Come back to meI was nothin' before you
But I became so strong
Just when things were goin' right
I had to make them wrongLife is crazy
When you let things slip away
And now I'm sorry ever since that day
You went awayI didn't mean to hurt you so
I never wanted you to go
Now there's nothin' I can do
Spend my time, late at night
Thinkin' only, about youI said baby
What are you doin'?
Who are you foolin'?
Nobody but meI said baby
Give me some time
To change your mind
Come back to meEver since you went away
I haven't been the same

Now there's nothin' I can do I was on the outside
Tryin' to find my way back in
And now I'm right back there again Life is crazy when you
Find you're all alone
But now maybe You can change your mind
And come back home to me
Come back to me Oh baby, won't you
Please come back?
