Moby

We heard the rain on the window
Like a simple waste of time
We heard the sirens' wailing
Like the world has lost its mind
We spend our days together
Hiding far with everything
Oh, we knew it was over
When the summer turned to spring
And all the words we said
All the time we spent
Does it mean nothing?
Does it mean nothing?
All the words we said
All the time we spent
Does it mean nothing?
Does it mean nothing?
We heard the rain on the window
Like a simple waste of time
We heard the sirens' wailing
I knew they'd comfort you
We spend our days in heaven
Dying far with everything
Oh, we knew it was over
When the needle didn't sting
And all the words we said
All the time we spent
Does it mean nothing?
Does it mean nothing?
All the words we said
All the time we spent
Does it mean nothing?
Does it mean something?
Does it mean something?
Does it mean something?
Does it mean something?
Does it mean something?
Does it mean something?
Does it mean something?
Does it mean something?

Does it mean something?
