I Really Miss You

S Club 7

I called you today just to hear you say
You were not around
When the message was through, though I wanted to
I couldn't make a soundI wanna tell you the things I've seen
I wanna take you to where I've been
And I wish you were here with me
Don't you know?I really miss you
Yes I do yeah
I really miss you
Oh yeah I doI'm writing to say, had a wonderful day
Hangin' with my friends
But the memory dies as the sun leaves the skies
I'm alone againI wanna tell you the weather is fine
When the night comes around you were on my mind
And I wish you were here with me
Don't you know?I really miss you
Yes I do, yeah
I really miss you
Yes I do, I miss you
I really miss you
Oh, yeah I doI wanna tell you the things I've seen
I wanna take you to where I've been
And I wish you were here with me
Oh don't you know, yeah?I really miss you
Yes I do, yeah
I really miss you
I miss youI called you today just to here you say
You were not around
When the message was through, though I wanted to
I couldn't make a soundI'm writing to say, had a wonderful day
Hangin' with my friends
But the memory days as the sun reach the skies
I'm alone again
