

Let It Rain (Live St. Louis 1982)

UFO

Two lovers in a desperate game
She holds him close but their love's in vain
And the married man that you laid
Goes back home to his own charade
She puts her faith in every word he said
Tender moments in a motel bed
When you press the point he says we'll see
But then walks through your mystery
So darling, you tell me it's a wild world
You gotta take a little pain and
How long till love last
That you can never, never explain
Do you just
Let it rain, let it rain
Don't stop those tears falling again just
Let it rain, let it rain
Now you see that love's just a game
In his arms time goes so fast
But stolen love will never last
You try to keep him though you know it's wrong
This kind of love can only last so long
So darling, you tell me it's a wild world
You gotta take a little pain and
How long till love last
That you can never, never explain
Do you just
Let it rain, let it rain
Don't stop those tears falling again just
Let it rain, let it rain
Now you see that love's just a game
So darling, you tell me it's a wild world
You gotta take a little pain and
How long till love last
That you can never, never explain
Do you just
Let it rain, let it rain
Don't stop those tears falling again just
Let it rain, let it rain
Now you see that love's just a game
Let it rain, let it rain
Don't stop those tears again
You gotta
Let it rain, let it rain
Now you see that love's just a game
You gotta
Let it rain, let it rain
Don't stop those tears again
Let it rain, let it rain
Now you know that love's a game
You gotta

Let it rain, let it rain
Don't stop those tears again
You gotta
Let it rain, let it rain
