

All She Wrote

Late to Bloom

"All She Wrote"

-Girl let me ride with you
leaving me
And girl let me sit with you
Setting me free
-Girl let me get with you
getting over me
And girl let me be with you
while you're letting me be

[Right beside you on your own]
[Just let me move in]
[With you moving on]

*Let me go
With you gone
Let me still be your sweet
between homes
Let me be what you pick up
And carry on
And if this is all she wrote
Here's her song

-Girl let me hold you
While you let me go
Girl let me stay in the picture
That you have to cut up just to show
-And girl let me be there
For our long ago
And girl let me be on both sides
Of your radio

[Bridge]

*Chorus

SOLO
