

Bundle Up

The Cool Kids

Who told you that you can sit with the kids,
computer whiz niggas still can't figure it out, though
got endo, got out-do, we clean our clothes, cream loads
Nissan Patrol with the bose stereo, yo
i dug holes trying to grow my seeds,
i got plug like the back of a screen, man
you got designs on the back of your jeans man
they steamin, i'm cold as a lean cuisine
comin fresh out the freezer, i'm clean to the ceaser
the only third grader in the school with a beeper
clipped to the seams, front pocket of them wranglers
my teacher took it from me, its funny as she snatched it
sleepers can't sleep if it's money in the mattress
a lot of niggas still running from they taxes and bills
we feel real recognize each other man, damn
goin' h.a.m., got it hotter than the motherland

Chorus:
Bundle up, bundle up,

You gotta bundle up!

Bundle up, bundle up,

I said you gotta bundle up!

You said it's gonna be cold today,

From the city and the frozen lakes!

Bundle up, bundle up,

You gotta bundle up!

They said you gotta bundle up!

You said it's gonna be cold today,

From the city and the frozen lakes!

Chuck English:
this glass is half full around here homeslice

brand new additions nigga i cant wear that twice

those might, those don't look right

I cant wear that you know

and I'm not just saying that to say it, two dogs

who cant fit what we carryin' in here

and we wont get pulled over drivin' around with those, famo

now let me pose for this photo

its me standing out in the snow with my coat on, right

well that sounds appropriate

means I'm gettin' hotter now given how cold its been out

and we the coldest bent out

and that's honest, ironic
that we the hottest that you seen in a minute comin'
and we ain't goin' green like global warming
but i do get that organic license on me
kind of bud you only blowin' out in California
whole foods shopping with me and all my buddies callin'
92 Saab 900 with the spoiler
away game white, baby blue, Houston Oiler
Mount Clemens, Michigan, and Metro Detroit
residing in Chicago where it gets a little colderchorus:
bundle up, bundle up,
man you gotta bundle up
bundle up, bundle up,
i said you gotta bundle up
you said it's gonna be cold today,
shoot
from the city and the frozen lakes
bundle up, bundle up,
man you gotta bundle up
they said you gotta bundle up
you said it's gonna be cold today
from the city and the frozen lakes
