Hole in the Sky

Saxon

Listen now, heed the warning
Can't you hear the planet's cries
With the storm comes the fury
Mankind looks towards the skyBurn the wheat (*)
Feed the fire
On the wind
Rising higher
There's a hole in the sky
Are we blind
Hole in the sky
Can't you seeCome the sun, come the wind
Ultraviolet radiation
Bring the flood from the sea
Breaking down communication(Repeat *)Listen now, heed the warning
Bring the land to devastation
Come the thunder, come the rain
See the end of all creation(Repeat *)
