## **Red Sky**

## Lawson

Lay with me on a street in the city
Find the still in the middle of crazy
Is this all that you wanted?
Just a leaf floating round in the shadows
Holding on tryna find how to let go
When you think you got all that you wanted
Feel the ground shaking
Slowly we are waking up

CHORUS

Theres a red sky Overhead tonight Thats how I know Its gonna be alright Its gonna be alright

Theres a pier reaching out from the seaside Breathe it in, breathe it out, open your eyes

Is this all that you wanted?

Feel the waves breaking

No more time wasting

Slowly we are waking up

## REPEAT CHORUS

Beautiful wonder

Where did you come from?

Writing your name on the horizon

Filling the sky up

Burning like fire

Yeah

## REPEAT CHORUS

Its gonna be alright

Its gonna be alright
