Electronic Warfare

Apoptygma Berzerk

"I miss her body.""Electronic warfare."Free lives to live. A trap beside my soul.
Foreign chaser. Beaming target.
Lost my shield, it's bullet proof.
Pressing buttons and shifting gear,
you run away from what you fear.
She shoots to kill.
Electronic warfare."Electronic Warfare."One life to go. You shoot before you aim.
I'm reaching for a killer tar, the only thing I claim.
Time is running out.
Suppose it's not a game?
You reload your gun.Electronic warfare."Shut down all electronic systems."
