Disappear

Sunny Day Real Estate

Of course we're miles away from home
We sink like stones
And we're lost beneath the waves
Not a trace to mark the gravesLost and tired and chainedOf course we plan the Great Escape
We drag our great fate around the razor wire
But our fear keeps us in lineTurn me inside out this time
Looking back the place that I come from
Disappeared, turn my face to the place
Where I go into the sun, disappear into the sunLost and tired and chainedI know what sleeps inside my heart
There's a path that starts
With a single step at dawn
Though the road goes on and onTurn me inside out this time
Looking back the place that I come from
Disappeared, turn my face to the place
Where I go into the sun, disappear into the sunDeep inside a song a thousand miles away
Every moment the start of a greater day
Running to a field a world we'll findAnd now the time has come for me
I must break free
From the prison I have made
And to face the way aheadDisappear into the sun, disappear into the sun
