Leuchtturm

Lollies

It's time to take you with me
On all the seven seas
We'll sail until the end of time
The moon will keep us companyIt's time to make the flight now
The skies are clear for take off
This longing has been calling your name
All I want is just to play this gameFor you I'd do those crazy things
And I'd lay the world down at your feet
I'd catch the falling stars from heaven
All these only to kiss you just one timeIt's time to take you with me
Down all the endless highways
We'll run until the end of time
The moon will keep us company
