

# Mental Beat

## Hanoi Rocks

The beat is getting stronger  
I can't take it any longer  
Every time I try to sleep I wake up to  
This beat inside of me  
You can't ignore this beat  
You have to get up on your dancing feet  
You will have no time to eat  
The beat is so much stronger than me,  
Oh, yes it is  
I observe and I learn  
Today I have been reversed  
And it seems to me now like I'm the  
Center of the universe  
hey! look at me!  
People ask me if I am going insane  
But I say it's just this missile in my vein  
It comes on hard, there's no stop no start  
And it kicks so strong, the kick goes on  
Over and over 'til you can't belong,  
It's an endless song  
One, two, three, it goes on  
Ooo Mental Beat, Ooo Mental Beat  
Your hero is a zero  
And you're just another weirdo  
It comes on like a bomber, a long distance drummer  
If you can't hear the beat you must be deaf  
Hanoi Roxx has got the beat  
Boy, they never seem to sleep!  
And the only explanation is that  
There is no protection  
Against the Mental Beat  
So let's go!
