

# Years

## Helloween

I see you beg for truth  
Heres some news I can convey  
All your lifes in your own hands  
Flat or steep you define yourselfTake a stance towards  
life that will keep you strong  
so youre in control  
Free your mind and  
choose from the good things  
that come your waySee the years passing by  
Add your part, fade and die  
Were all in this scheme to thrive  
In a quest to persevere  
Dont submit to your fears  
Even youll see the lightI just heard, you made the call  
Untold myths and pains resolved  
Time has shown, no time left to tell  
Keep your life, you just saved yourselfBuild up strength so  
life cant turn awkward,  
avoid the pigeonholes  
Free your mind to  
choose from the good things  
that come your waySee the years passing by  
Add your part, fade and die  
Were all in this scheme to thrive  
In a quest to persevere  
Dont submit to your fears  
Even youll see the lightSoloTake a stance towards  
life that will keep you strong  
so youre in control  
Free your mind and  
choose from the good things  
that come your way  
come your way, come your way.See the years passing by
