You Don't Know Anything

Ivy

By now there's nothing left to say
I just opened your letter
I know you're only human but
I expect something betterYou let me down again
You drove me to the endAnd it's so strange
The way you've changed
You knew me well
Now, I can tell you don't know anythingBy now there's nothing I can say
I just finished your letter
I know you're barely human but
I can get something betterYou let me down again
You drove me to the endAnd it's so strange
The way you've changed
You knew me well
Now, I can tell you don't know anythingYou let me down again
You drove me to the endAnd it's so strange
The way you've changed
You knew me well
Now, I can tell you don't know anythingAnd it's so strange
The way you've changed
And it's so strange
The way you've changedAnd it's so strange
And it's so strange
