(No More) Love At Your Convenience

Alice Cooper

Your childish game is over now
Lost your power over night some how
Better see it ain't gonna be like it used to beNo more love at your convenience
No more love at your command
No more love at your convenience
Lots of time late at night, I really needed youI'm telling you tonight's the night
Close your mouth, turn off the light
Pull me babe, pull me down closer on youNo more love at your convenience
No more love at your command
No more love at your convenience
Lots of time late at night, I really needed you
I really needed you, I really needed youNo more love at your convenience
No more love at your command
No more love at your convenienceQuit your tears and dry your eyes
You know I hate to see you cry
Don't you see things gotta be what they got toNo more love at your convenience
No more love at your convenience
No more love at your convenienceNo more love at your convenience
No more love at your convenience
No more love at your convenience
