

Good People

Little Big Town

They say you are who you hang with
It's no coincidence I wanna hang with you
Rise and fall together, travel is better in twos Sometimes it feels like a magnet
The way that crazy always sticks with its own kind
I don't believe in ESP, but you can read my mind Good people know
Good people know
Good people Good people know
Good people know
Good people A good friend would bail you out of jail
But a better one would be handcuffed to you
Everyone's a winner when all the winners loose Good people know
Good people know
Good people (good people, good good people) Good people know
Good people know
Good people They can always spot another one when they're nearby
No matter where you land you're gonna find Good people know (good people know)
Good people know (good people know)
Good people (good people, good good people) (Good people) We're guilty by association
Keeping company with ornery company
Running round with rogues and rounders 'cause we believe Good people know
Good people know
Good people Good people know
Good people know
Good people (good people, good good people) They can always spot another one when they're nearby
No matter where you land you're gonna find (you're gonna find) Good people know
Good people know
Good people (good people, good good people) Good people know
Good people know
Good people (good people, good good people)
