Lady Love

LeToya

Let's go...[Verse 1:]
Tell me what would you say if I told you I could pay for that
Would you take the cash I gave you or would you just pass it back
Would you be down to roll cause I'm always on the go
My swag's incredible, can you keep up with me though[Pre-Chorus:]
Come here baby, hop in my Mercedes
Drive you crazy, not your average lady
It's whatever, no one does it better
Lock me down no less than forever[Chorus:]
Oh boy, you know you want a girl like me
That change your world type of girl, lady love
And I know, you wanna love me til the sun goes down
I'll be around, lady love
I'll give you lady love, some of that lady love
Come and get this lady love, just call me lady love[Verse 2:]
I'm such a lady
(Just ask yourself) if you ever met a girl like me, yeah
Now do you find it funny that I'm capable of making dough
Wash your clothes, heat up the stove, same time making you oh![Pre-Chorus:]
Come here baby, hop in my Mercedes
Drive you crazy, not your average lady
It's whatever, no one does it better
Lock me down no less than forever[Chorus:]
Oh boy, you know you want a girl like me
That change your world type of girl, lady love
And I know, you wanna love me til the sun goes down
I'll be around, lady love
I'll give you lady love (would you like that)
Some of that lady love (would you like that)
Come and get this lady love (do you want that)
Just call me lady love[Bridge:]
Open your eyes, you'll see I'm all you need babe
I'll take you higher, they ain't fly as me baby
With you, desire comes natural to me babe
Forever love ya, your lady lover
Lady lover, yeah, no one, no... can love you
Hey, gotta have it, ooh you can't resist my lady love[Chorus:]
Oh boy, you know you want a girl like me
That change your world type of girl, lady love

And I know, you wanna love me til the sun goes down
I'll be around, lady love
I'll give you lady love (would you like that)
Some of that lady love (would you like that)
Come and get this lady love
Just call me lady love...
