Please

Erick Willis

Baby please, you got me on the ground got me on my knees. Begging you to stay, a few more weeks. And I'll follow where ever you want to go, as long as you know. Baby please.
Baby why, do you stick around for all my life. I can't stand to keep making you cry and and I don't know how to let you know. Lord I don't know, baby why.
Baby stay, wouldn't have it any other way. Without you couldn't
make it love, one more day. And I promise to treat you right, starting tonight. Baby stay.
Baby please, you got me on the ground got me on my knees. Begging you to stay, a few more weeks. And I'll follow where ever you want to go, as long as you know. Baby please.
