Do Me Like a Caveman (Instrumental Version)

Edguy

You're letting go and try to fly away
To the slumberous voice of pouring rain
The inner agitation's dancing in your head
Will it ever end?You're all alone with coloured memories
Ungiving hotel without company
The ringing in your brain it starts to fade away
Fade awayAre you insane?Walls come down
And then a ghostly voice
It sets up crazy moans into the nightTime and time again...
And you don't have a choice
But lie awake to verifyDid she really say
"Now do me! Do me like a caveman"?It feels like no one's ever there when you're in need
And no one's ever gonna try to believe
The unforbearing walls are living to let it through
Whispering ghostly - right to youWalls come down
And then a ghostly voice
It sets up crazy moans into the nightTime and time again...
And you don't have a choice
But lie awake to verifyGround is shaking
The earth is quaking
And nobody's here to testifyGhostly whispers in the night:
"Do me like a caveman!"Walls come down
And then a ghostly voice
It sets up crazy moans into the nightTime and time again...
And you don't have a choice
But lie awake to verifyGround is shaking
The earth is quaking
And nobody's here to testifyGhostly whispers in the night:
"Don't waste time to hold me tight
Like a caveman push inside!"Ghostly whispers in the night:
"Don't waste time and come inside
Like a caveman take a ride!"
