Just My Heart

Quietdrive

The way I feel when I'm in doubt
Is the way I feel when I'm without
The way you kiss when we're alone
The way you won't pick up your phoneBut she works on that garden alone like her father
All day long, all day long
And I think that she's thinking of me but you know I may be wrong, I may be wrongIt's only just my heart
It's only just my veins
You've been swimming in so long
Slowly killing all this painDon't you know I like the way she makes me laugh out loud
The way she makes me think about
The perfect way to turn her on
The way that I slip off her tongueBut she works on that garden alone like her father
All day long, all day long
And I think that she's thinking of me but you know
I may be wrong, I may be wrongIt's only just my heart
It's only just my veins
You've been swimming in so long
Slowly killing all this pain
But it's only just the sun
That takes away the rain
Suddenly I'm not as sad as yesterday
What's left to say when you've said all you've said
Take down the picture by my bed
What's left to bleed when you've bled all you've bled
I keep on thinking aboutThe way I feel when I'm out of luck
The way that I can't live without youWhat's left to take when you have nothing left
You took all the bestIt's only just my heart
It's only just my veins
You've been swimming in so long
Slowly killing all this pain
But it's only just the sun
That takes away the rain
Suddenly I'm not as mad
Suddenly I'm not as badSuddenly I'm not as sad as yesterday
Suddenly I'm not as sad as yesterday
