The Naughty Villain

Elf Power

It took a long time
It took a special lie
To see the rushing river
Washing over me at nightIt took a longing for
Some new sight
Something you'd never seen or heard of
In your whole lifeIt took a hundred nights to see the whole sky
It took a hundred more to wake up and return to life
I was the naughty villain (he was a bad guy)
I got too lost
I was the buried treasure resting deep beneath the mossOpen up the door to see
Giant still standing next to me
Looks at me with crimson-colored eyes
Wanting me to read from the Book of Lies
