Perfect Replacement

Example

I've told too many girls that i love 'em
I've told too many girls their the one
So why am i sitting here all alone
How do you measure fun?
I've called lost property
Too many times
And i can't live properly
A piece of me died
I wasn't aware the Mona Lisa cried
Maybe i remember my decent side
Wash the kisses off my neck
And lock my past in the basement
I need to find your perfect replacement
Let's start, you torn him apart
He had alot of heart for a heartless bastard
So sad, sad it ain't lasted
Scream like you mean if you wanna go faster
But he'll never slow down
Tears of a clown like bits of motown
Found what he needs and his heart still bleeds
But you'll never take a ride on his merry-go-round
We'll never know what we may find
Find on the other side
We'll never know what we may find

I've called lost property
Too many times
And i can't live properly
A piece of me died
I wasn't aware the Mona Lisa cried
Maybe i remember my decent side
Wash the kisses off my neck
And lock my past in the basement
I've found your perfect replacement
Hope you remember my love
Remember my name
Post a message in the post
Hope you get it by May
Lock my past in the basement

I've found your perfect replacement
I've found something
Never need your nothing again x6
Who's laughin now?
I've found your perfect replacement
Lock my past in the basement
I've found your prefect replacement
