Here We Go

S Club Juniors

Here we go, come on get the party started,
come on get the party started, get the party started,
SClub Juniors
Give it up, get it on, sing along, come on, I say here we go>br>
All my friends together, havin' a party under one roof
You can bring your best friend, you can do what you wanna do
And we'll all have good times, we can dance through the night
We can sing till it's light, I say here we go
Give it up, get it on, sing along
Come on, I say here we go
Stand in line, clap in time, everyone catch the vibe
Come on, I say here we go, here we go
Here we go-oh, here we go-oh, here we go-ooh
And now the music's getting louder, everyone's jumping to the beat
And when the rhythm hits you, you just can't help but move your feet
And we'll all have good times, we can dance through the night
We can sing till it's light, I say here we go

Give it up, get it on, sing along
Come on, I say here we go
Stand in line, clap in time, everyone catch the vibe
Come on, I say here we go, here we go
Here we go-oh, here we go-oh, here we go-ooh
S Club Juniors
Here we go-oh, here we go-oh, here we go-ooh
I say here we go
Give it up, get it on, sing along
Come on, I say here we go
Stand in line, clap in time, everyone catch the vibe
Come on, I say here we go, here we go
Give it up, get it on, sing along
Come on, I say here we go
Stand in line, clap in time, everyone catch the vibe
Come on, I say here we go, here we go
Come and join the party, time to catch the good vibe Everybody's dancing now
I say here we go
Come and join the party, time to catch the good vibe I say here we go
