

# Here We Go

## S Club Juniors

Here we go, come on get the party started,  
come on get the party started, get the party started,  
S Club Juniors

Give it up, get it on, sing along, come on, I say here we go  
All my friends together, havin' a party under one roof  
You can bring your best friend, you can do what you wanna do  
And we'll all have good times, we can dance through the night  
We can sing till it's light, I say here we go  
Give it up, get it on, sing along  
Come on, I say here we go  
Stand in line, clap in time, everyone catch the vibe  
Come on, I say here we go, here we go  
Here we go-oh, here we go-oh, here we go-oh  
And now the music's getting louder, everyone's jumping to the beat  
And when the rhythm hits you, you just can't help but move your feet  
And we'll all have good times, we can dance through the night  
We can sing till it's light, I say here we go

Give it up, get it on, sing along  
Come on, I say here we go  
Stand in line, clap in time, everyone catch the vibe  
Come on, I say here we go, here we go  
Here we go-oh, here we go-oh, here we go-oh  
S Club Juniors

Here we go-oh, here we go-oh, here we go-oh  
I say here we go  
Give it up, get it on, sing along  
Come on, I say here we go  
Stand in line, clap in time, everyone catch the vibe  
Come on, I say here we go, here we go  
Give it up, get it on, sing along  
Come on, I say here we go  
Stand in line, clap in time, everyone catch the vibe  
Come on, I say here we go, here we go  
Come and join the party, time to catch the good vibe Everybody's dancing now  
I say here we go  
Come and join the party, time to catch the good vibe I say here we go
