

Grab Thy Hand

Chevelle

Grab thy hand and look
Through
Through
Through
Through Bring me your time
How I long for release
Shown presently
Reveals a man to repeat God, how I long
How I long
To grab thy hand and look May I come in
Grab hold just this once
May I come in just this once
Just this once, just this once
Grab thy hand and look Through
Through
Through
Through No! May I come and
How long, just once
Can't I come and
Grab thy hand and
May I come and
Through
How long, just once
Can't I come and
Through
Grab thy hand and Look
Through
Look
Through
Look
Through
Look
Through
