Jaded Ways

Lagwagon

I used to be a trustworthy guy
I could have bend down my friend
But no one seems to care
Life, it's all just filthy air, right?
But do they giving you anything?
When there is nothing give
But your people kept thinking
They could have mine if you'd like to do, live to all in my life totally jaded
It's all that cool and it doesn't beat
I walk alone with psychic people that I hated
No, I have to dole my jaded ways when there's on more
So you're gonna do her
Before she's gonna do him
Your one demand is to get fucked
And I'll be playing with violence
This act is a whipAnd where I would walk for someone else
Just keep time, all our live's getting murdered, in my life so totally jaded
It's all that cool and it doesn't beat
I walk alone with psychic people that I hated
Oh, I have to dole my jaded ways when there's on moreYour life will not lastBut can I keep this life in junction,
never talked with people that life would
die
I need quiet chatter with the way too damned, I just don't have the time
The time gets short, it's not in your butt but my nature, is there something
wrong with me?
And now I know you're the one to play, you laughed out of your stupid hate
