

My Love

Lime

(Denis LePage, Denyse LePage) You know my love has a mind of its own

Even when I know that I'm all alone

Sometimes it feels like it's just a machine

Even though I think that you're just a dream (Pre-Chorus, Repeat 2x)

'Cause I love you, love you, love you (Chorus 1)

Baby, you've got the key (oh, baby)

You can ignite me, baby

When you're still at the wheel (ooh-ooh, baby)

Of my emotions, baby You know my love has a mind of its own

And when I know you're in my danger zone

I can't explain though when you make me feel

Sometimes it seems that you cannot be real (Repeat Pre-Chorus 2x) (Repeat Chorus 1) (Instrumental Break) You

know my love has a mind of its own

'Specially when you know that I'm all alone

That's when I'm sure that you're not just a doll

You can hug me just a frame on the wall (Repeat Pre-Chorus) (Repeat Chorus 1) (Chorus 2)

Babe, it's easy to see (yeah, baby)

You're not a picture, baby

Yeah, you've got to be real, (ooh, baby)

With your emotions, baby (Repeat Chorus 1 and 2 and Fade)
