

# Summer Love Song

Brooke Hyland

Summer time and I'm feeling fine.  
Kissed by the sun the sky  
Sparks fly when he walks on by  
Just like the 4th of July

He looks so beautiful  
That my legs get weak when I start to move  
And my heart can't help what's going on  
When the DJ plays that summer love song  
Yeah, that summer love song, yeah

Spin that record round and round  
Cause I can't get enough of that summer sound  
Let me hear that music  
Turn the bass way up and boom it

And play that record til the sun goes down  
From the beach to the party to the underground  
Let me keep on grooving  
Put your hands in the air keep moving

And come on baby sing a long to that summer love song  
Yeah, that summer love song, yeah

Friday night and it feels so right.  
Cold breeze in the August sky  
He's got me burning up  
One look and I feel so hot

He drives me crazy  
I love it when he calls me baby  
And we dance to the stars in moonlight  
To the summer love song that just feels so right

Spin that record round and round  
Cause I can't get enough of that summer sound  
Let me hear that music  
Turn the bass way up and boom it

And play that record til the sun goes down

From the beach to the party to the underground

Let me keep on grooving

Put your hands in the air keep moving

And come on baby sing a long to that summer love song

Yeah, that summer love song, yeah

So baby take my hand

You're all I'll ever need

We can dance out in the sand

Watch the sun set by the sea

We can shine just like the stars

The pier view with me

We can fall in love tonight, tonight

Spin that record round and round

Cause I can't get enough of that summer sound

Let me hear that music

Turn the bass way up and boom it

And play that record til the sun goes down

From the beach to the party to the underground

Let me keep on grooving

Put your hands in the air keep moving

Spin that record round and round

Cause I can't get enough of that summer sound

Let me hear that music

Turn the bass way up and boom it

And play that record til the sun goes down

From the beach to the party to the underground

Let me keep on grooving

Put your hands in the air keep moving
